

Technology Donation Form

We believe every day is Earth Day at Computers 2 Kids (C2K), and we thank you for choosing us when donating your technology. Your donated electronics will receive a second chance to help a low-income family succeed. C2K understands the importance of security, and we wipe each hard drive with software that conforms to *US Department of Justice cleaning and sanitizing standard DoD 5220.22-M*. This software ensures that all data has been erased. **If shipping your donation to C2K, please include a copy of this form in your shipment.**
